NO ONE
BUILDS
A BETTER
FIRE.

THE PURSUIT OF INNOVATION

Heat & Glo is fueled by innovation and driven to prove “No One Builds A Better Fire.” The brand was founded in 1975 in a small Minnesota garage by brothers Ron and Dan Shimek. In 1987, the brand introduced Direct Vent technology—forever changing the way fireplaces function.

Much has changed since its beginning. Yet much remains the same. Today, Heat & Glo continues on an endless pursuit; pushing the boundaries of where fire can go and how it can look.

DESIGN

Design is an integral part of form and function. With Heat & Glo, meticulous product development creates cutting-edge designs with creative applications. An expansive breadth of offerings is available. From traditional to ultramodern. With more than 40 models and countless styles.

INNOVATIVE TECHNOLOGY

Heat & Glo holds the most patents, honors and awards in the industry. The brand created fire from water, and also developed exclusive technologies like FireBrick[®] and IntelliFire™ Plus. Heat & Glo is always pushing the envelope with technology for today, and innovation for tomorrow.

HEAT & GLO TECHNOLOGIES

INTELLIFIRE & INTELLIFIRE PLUS IGNITION SYSTEMS

An advanced intermittent pilot ignition system with memory settings and a programmable wireless RC300 remote control. IPI Plus constantly monitors ignition, ensures safe functioning and conserves up to \$10/month in energy costs.

DIRECT VENT TECHNOLOGY

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

FIREBRICK® TECHNOLOGY

FireBrick is a patented, energy-saving ceramic material molded in a variety of masonry designs. FireBrick produces up to 25% more radiant heat than metal fireboxes—heating rooms faster and using less fuel. This increases efficiency and reduces heating costs.

HEAT ZONE TECHNOLOGY

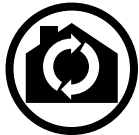

Draw heat from the fireplace into another room of the home, up to 20 feet away. When a heat zone kit is run continuously, it will redirect up to 25% of the fireplace's heat to another area, thus reducing wall temperatures above the fireplace. Two heat zones run continuously will redirect up to 50% of the fireplace's heat.

POWERFLOW™ HEAT MANAGEMENT TECHNOLOGY

Our exclusive PowerFlow Technology redirects the flow of heat, sending warmth where you want it, all while maintaining safe outer glass and a cool wall. Quickly adjust heat distribution throughout your space, inside or outside the home. The choice is yours—at the flip of a switch.

HEAT & GLO TECHNOLOGIES

HEAT DUCT TECHNOLOGY

Brings the warmth from your fireplace to the rest of your home, by redistributing heat from the fireplace via the furnace ductwork. When a heat duct kit is run continuously, it will redirect up to 25% of the fireplace's heat to another area, thus reducing wall temperatures above the fireplace. Two heat ducts run continuously will redirect up to 50% of the fireplace's heat.

LED LIGHTING TECHNOLOGY

Superior performance and extended efficiency. This technology provides high-contrast, brilliant lighting to accentuate the flames. Can be used as mood lighting, with or without the flames.

POWER VENT TECHNOLOGY

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

FADE-RESISTANT BLACK GLASS INTERIOR

A clean modern look never gets dull. Just like this black glass interior. It's hot. And looks that way, too. For the life of your Heat & Glo.

ANTI-REFLECTIVE GLASS

A cleaner, more distinct view of the fire. A glare reduction of 89% over standard ceramic glass. And an experience so real, friends may just try and add a log to the fire.

TRADITIONAL GAS FIREPLACES

36"

ENERGY PRO

DIRECT VENT GAS FIREPLACE

The award-winning Energy Pro is a 92.6% efficient gas fireplace—the most efficient ever made. It's also certified as a furnace and can heat up to 4 rooms with Zone Heating technology. A prime example of how Heat & Glo continues to harness innovation into every product.

36" 42" 50"

TRUE DIRECT VENT GAS FIREPLACE

The TRUE offers the most authentic masonry appearance available in a Direct Vent gas fireplace. The best fire, cleanest look and largest view available come in 3 sizes with high definition logs, LED accent and ember lighting and reflection-free glass. It's an attractive, powerful fireside experience—a TRUE innovation in traditional style.

36" 42"

CERONA

DIRECT VENT GAS FIREPLACE

The Cerona is the only true-arched fireplace on the market . It's arched elegance pairs well with robust flames and impressive efficiency. Patented, heat-radiating FireBrick® material and cantilevered corners provide the beauty of a custom-built masonry fireplace.

42"

ESCAPE SEE-THROUGH DIRECT VENT GAS FIREPLACE

Take comfort to the next level, and Escape. Flames rise through accent lighting and intricate logs for a broad fire. Enjoy the Escape See-Through from two rooms, with arched or square front designs.

36" 42"

6000 & 8000 SERIES

DIRECT VENT GAS FIREPLACE

The 6000 Series is the flagship of Heat & Glo. Three models are available (C, CL, CLX) offering different heating, features and aesthetics for different homebuyers. The 8000 Series provides all of the benefits of the 6000 Series in a larger size with greater heat output.

36

MULTI-SIDE DIRECT VENT GAS FIREPLACES

Multi-Sided fireplaces present an opportunity to elegantly divide a space, act as a window between rooms or provide dramatic architectural elements. Pier, see-through and left or right-corner models showcase fire in more ways. Create your own, unique hearth with a variety of sizes, styles and finishing options.

21"

CRESCENT II

DIRECT VENT GAS FIREPLACE

The Crescent II brings warmth and luxury to corners and smaller spaces. FireBrick® material provides its true-arched shape, and adds greater detail and radiant heat. Create a unique focal point with this distinctive shape and style.

33

EVEREST
DIRECT VENT GAS FIREPLACE

The Everest invigorates a space with a twist on tradition. A dramatic vertical design with cast surround options highlights bold fires.

28" 32" 36" 42"

SLIMLINE SERIES

DIRECT VENT GAS FIREPLACE

SlimLine fireplaces fit where others don't. A slender profile with slim, flexible venting options offer an array of unique installation possibilities. Define any space with four sizes in decorative or heating models.

36" 42"

REVEAL

B-VENT GAS FIREPLACE

Recreate the timelessness of a wood-burning fire with the open-hearth Reveal. Match your mood and enjoy full, generous flames with the optional doors open or closed.

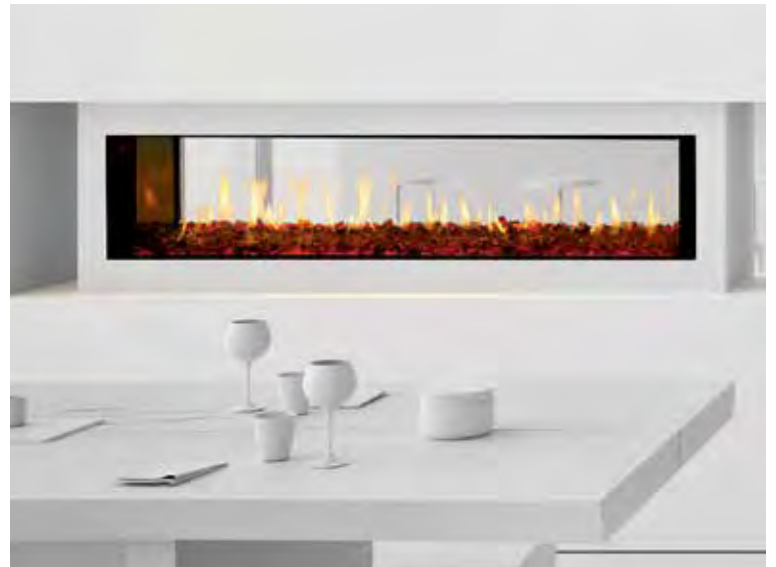

MODERN GAS FIREPLACES

48" 60" 72"

PRIMO
DIRECT VENT GAS FIREPLACE

Warm up to our most luxurious fireplace yet. Where intricate modern styling meets innovative heating technology. Defying convention and designed for the spotlight. There's a reason we call it the PRIMO.

36" 42" 50"

LUX

DIRECT VENT GAS FIREPLACE

The LUX delivers modern art, on fire. Colorful flames rise through sculpted stainless steel while a reflective black glass interior multiplies the fire and radiates the flames.

36"

SOLARIS DIRECT VENT GAS FIREPLACE

The award-winning Solaris is a tribute to the innovation of Heat & Glo. At 6-inches deep, its patented Razor™ burner provides the illusion of a floating flame. Create a striking focal point with the slimmest fireplace in the world. Available in see-through or infinity flame models.

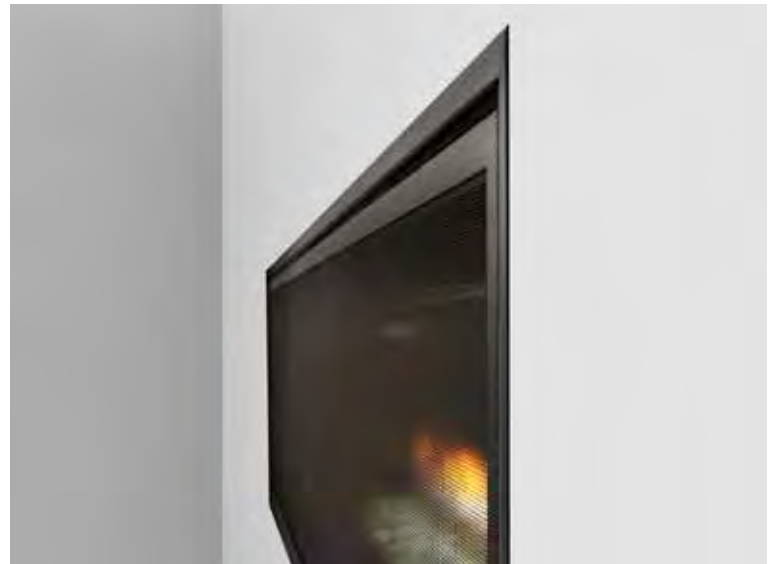

36" 48" 60" 72"

MEZZO

DIRECT VENT GAS FIREPLACE

You've never experienced modern design like this. Clean. Discreet. Luxurious. In 4 sizes, with single-sided and see-through models. And a variety of finishing options. We spared nothing, to give you everything. It's modern design, redefined.

36" 42"

6000 & 8000 MODERN DIRECT VENT GAS FIREPLACES

These two models are a modern take on the flagship series of Heat & Glo. Sleek flames rise through crushed glass and multiply with a reflective black glass interior. It's a vivid and elegant fireside experience.

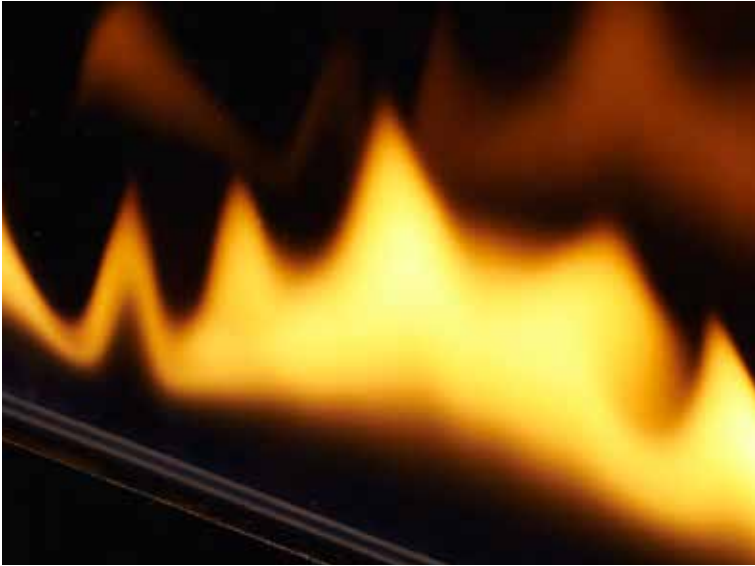

S H V

REVO SERIES

DIRECT VENT GAS FIREPLACE

The REVO Series comes in square, horizontal or vertical models. Slender, 7-inch deep profiles can hang on the wall, or be recessed in-wall—for installation in nearly any room. Stunning design and efficient heat output have never been this simple.

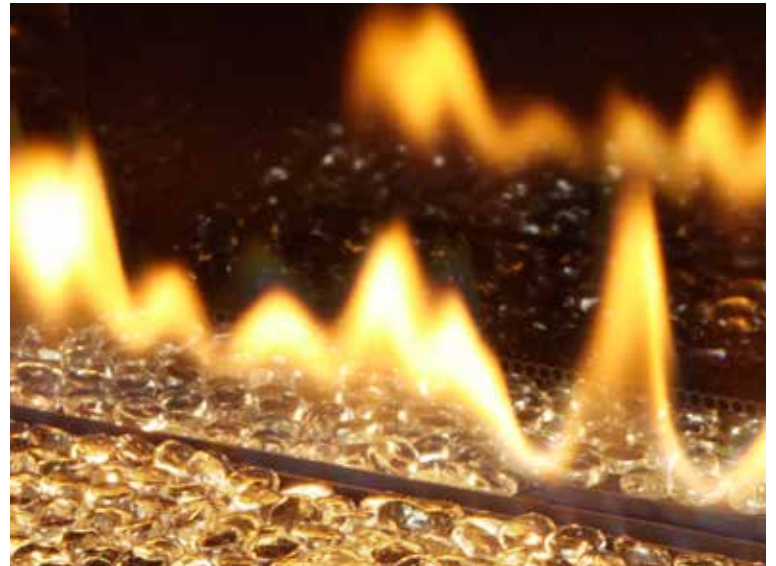

32" 42"

COSMO

DIRECT VENT GAS FIREPLACE

COSMO gas fireplaces provide warmth, ambiance and chic contemporary detail. Two sizes with multiple finishing options deliver a bold design statement—through a functional focal point.

32" 36"

SLIMLINE FUSION DIRECT VENT GAS FIREPLACE

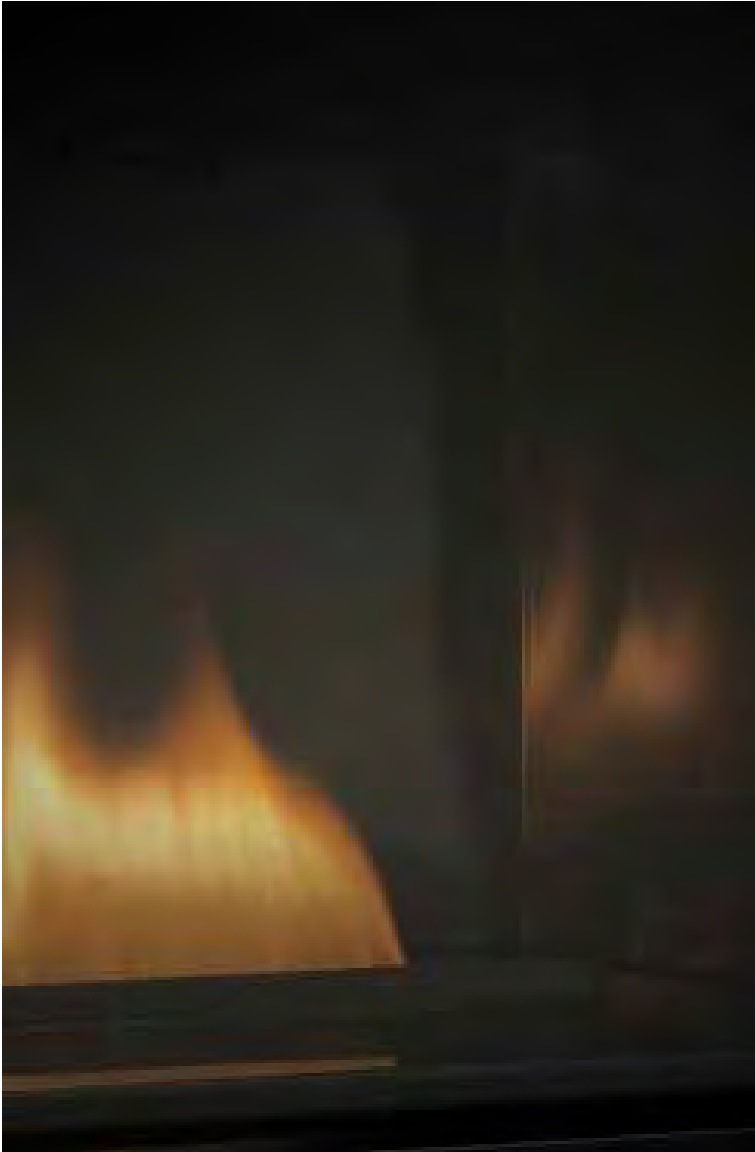

This unique member of the SlimLine Series can be personalized with modern stones or glass, or traditional logs. Create a style uniquely yours—a fusion of modern and traditional elements.

METRO SERIES
DIRECT VENT GAS FIREPLACE

The METRO Series features a contemporary design and shallow footprint for unique installation areas. Highlight both contemporary and transitional décor with this compact, efficient option.

GAS FIREPLACE INSERTS

30" 35"

ESCAPE

DIRECT VENT GAS INSERT

The Escape revives an existing fireplace with impressive flames and high-efficiency heating. Exclusive FireBrick material provides authentic masonry appearances and greater heat output.

30" 35"

GRAND & SUPREME DIRECT VENT GAS INSERTS

Transform a dated or drafty fireplace into a beautiful source of warmth. These gas metal inserts provide efficient performance in smaller or larger hearth openings. Detailed logs and glowing embers add authentic ambiance.

30" 35"

COSMO

DIRECT VENT GAS INSERT

Transform an existing fireplace opening with the modern design of the COSMO. A reflective black glass interior and long ribbon of flame deliver unmatched style.

GAS STOVES

PALOMA
DIRECT VENT GAS STOVE

The smart, sophisticated Paloma artfully blends European styling with advanced engineering. Its smooth lines and slender proportions perfectly suit more intimate spaces.

TIARA SERIES
DIRECT VENT GAS STOVE

The Tiara Series of gas stoves includes 3 sizes—matching the right heat output for the right space. Traditional cast iron construction supplies distinctive detail and efficient heat output in any environment.

TRADITIONAL WOOD FIREPLACES

36

NORTHSTAR
EPA-CERTIFIED WOOD FIREPLACE

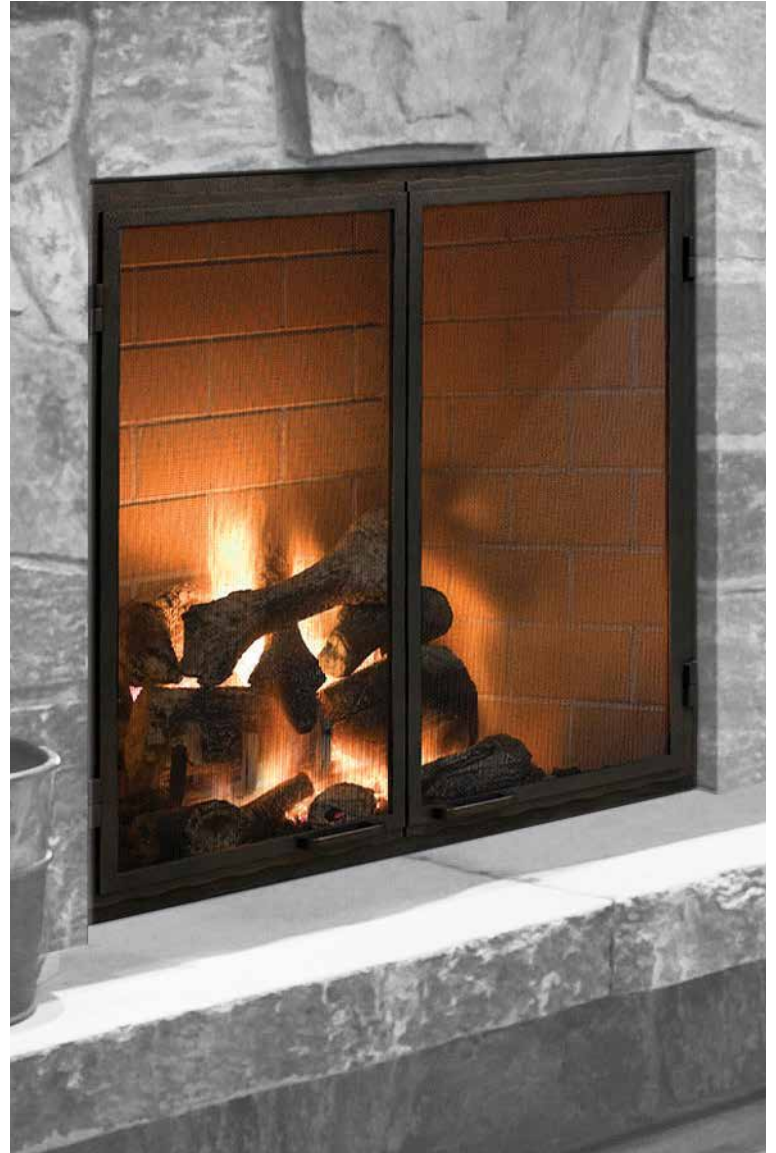

The Northstar exceeds the strictest environmental standards in the nation—so you can enjoy roaring fires even in areas where conventional wood-burning fireplaces are banned.

36" 42" 50"

RUTHERFORD WOOD FIREPLACE

The Rutherford Series offers robust performance and the appearance of a custom-built masonry fireplace—all at a fraction of the cost. Whether a crackle or a blaze, the Rutherford delivers a bold statement in your favorite room.

36" 42" 50"

EXCLAIM WOOD FIREPLACE

The Exclaim Series offers large viewing areas and attractive brick interiors, bringing warmth and ambiance into your favorite room.

36" 42"

ENERGY MASTER WOOD FIREPLACE

The Energy Master Series delivers generous warmth and solid radiant heat from an insulated, heat-circulating fireplace.

36" 42"

ROYAL HEARTH WOOD FIREPLACE

Enjoy blazing wood-burning fires with the Royal Hearth Series. An easy-to-operate damper, convenient ash lip and invisible smoke shield make staying comfortable even easier.

OUTDOOR GAS FIREPLACES

36

TWILIGHT SERIES

INDOOR/OUTDOOR GAS FIREPLACES

Add warmth and beauty to two spaces—with one fireplace. The Twilight Series includes the world's first see-through, indoor/outdoor gas fireplace. Enjoy traditional or modern ambiance, all year long—and from either side.

36" 42"

CAROLINA OUTDOOR GAS FIREPLACE

The Carolina's compact footprint offers versatile installation opportunities. And, this attractive unit is packed with advanced technology, like the IntelliFire™ Plus auto-ignition system and FireBrick technology for up to 25% more radiant heat. Extend your summer season with style. Bring the Carolina home.

42"

DAKOTA
OUTDOOR GAS FIREPLACE

The Dakota artfully blends style, function and utility with outdoor living. A rugged design with 100% stainless steel construction is built to perform, even in the most adverse outdoor conditions.

36" 42"

VILLA GAS OUTDOOR GAS FIREPLACE

The Villa Gas is a versatile outdoor gas fireplace at a value price. This compact unit can easily be installed on decks or patios. A stainless steel surround withstands the elements, and complements an outdoor kitchen or contemporary living space.

OUTDOOR WOOD FIREPLACES

42"

CASTLEWOOD OUTDOOR WOOD FIREPLACE

The Castlewood turns any outdoor area into a welcoming and relaxing living space. A large, high opening provides a dramatic view from across the yard, and a textured brick interior offers masonry-style looks at a fraction of the cost.

36" 42"

MONTANA OUTDOOR WOOD FIREPLACE

The Montana is the original outdoor fireplace that started it all. It's fashionably built to withstand adverse weather conditions and deliver solid performance—season after season, year after year.

36" 42"

VILLAWOOD OUTDOOR WOOD FIREPLACE

The Villawood is a wood-burning fireplace at home in a variety of outdoor spaces. Upgrade your outdoor kitchen, or enhance your living area with style and warmth. Attractive stainless steel surround helps accent your décor.
