

WOOD PRODUCTS

ACC WOOD INSERTS

Automatic Combustion Control (ACC) technology controls airflow for longer, cleaner and more efficient burns.

VOYAGEUR GRAND

The Voyageur Grand is a larger version of the award-winning Voyageur. Experience the same elegant cast iron look with more powerful performance—heating 1,100 to 2,800 sq. ft.*

VOYAGEUR

The cast iron Voyageur is a great option for most masonry fireplaces. It efficiently produces vivid, rolling flames and can heat 900 to 2,400 sq. ft.*

5100i

The 5100i is one of the largest bay-styled inserts available. Enjoy the blazing fire from more angles, and heat 1,200 to 3,100 sq. ft.*

4100i

Witness powerful heating season after season, year after year. This full cast iron insert offers 3-sided viewing, and heats 1,100 to 2,800 sq. ft.*

3100i

The 3100i can transform any masonry fireplace into an efficient wood-burning heat source. Warm a room, or an entire house, this insert can heat 1,100 to 2,500 sq. ft.*

2700i

This compact insert is designed to fit directly into smaller fireplaces and immediately provide upgrades in style, safety and performance—heating 900 to 2,300 sq. ft.*

GAS PRODUCTS

GAS STOVES

TOPAZ

The Topaz is the largest Quadra-Fire gas stove available. Behind its superior craftsmanship and sophisticated style is rugged power—heating 900 to 2,200 sq. ft.*

SAPPHIRE®

This stoic gas stove delivers powerful performance in beautiful cast iron. Exclusive technologies ensure high-efficiency, robust fires—providing heat for 600 to 1,700 sq. ft.*

GARNET-T

A slim footprint makes this striking gas stove ideal for the bedroom, den or dining room. A clever, compact design still produces intense heat output for 300 to 900 sq. ft.*

HUDSON BAY

The expansive bay window design of the Hudson Bay provides impressive fireside views. A quiet variable speed blower helps distribute heat throughout 900 to 2,400 sq. ft.*

SAPPHIRE

GAS INSERTS

QFI35FB

This insert offers classic style with impressive technology. A patented FireBrick® interior provides traditional masonry looks, and up to 25% more radiant heat than metal fireboxes—heating 900 to 2,300 sq. ft.*

QFI30FB

This Direct Vent insert is designed to upgrade medium sized traditional wood-burning fireplaces with performance and style. Its exclusive FireBrick® interior increases efficiency, and helps heat 800 to 2,200 sq. ft.*

QFI35

This insert is designed for larger fireplaces. Direct Vent technology increases efficiency and safety. Enjoy the proven heating performance for 700 to 1,800 sq. ft.*

QFI30

The QFI30 is made to fit into medium sized traditional wood-burning fireplaces and revive looks, performance and safety. High-efficiency heating fills 700 to 1,800 sq. ft.*

HUDSON BAY INSERT

Update a dated fireplace with the bay window design of this attractive insert. A quiet variable speed blower helps distribute heat throughout 900 to 2,300 sq. ft.*

QFI35FB

DECORATIVE FRONTS

GAS INSERTS

TUSCAN BAR

This front uses an elegant design and decorative bars to accent the view of big, bold fires.

Available for the QFI30FB and QFI35FB gas inserts.

TUDOR PANEL

Enjoy simple elegance in the style of an old English manor.

Available for QFI30, QFI35, QFI30FB and QFI35FB inserts.

AFFINITY ARCH

This classic contemporary front is designed to emphasize the fires within.

Available for QFI30 and QFI35 gas inserts.

FIRESCREEN LEAVES

A mesh firescreen enhances safety and distinct leaf silhouettes add intricate detail.

Available for QFI30FB and QFI35FB gas inserts.

FIRESCREEN

This simple mesh firescreen enhances safety without inhibiting viewing quality.

Available for QFI30, QFI35, QFI30FB and QFI35FB inserts.

PRODUCT GUIDE

QUADRA-FIRE®

STOVES • INSERTS • FIREPLACES

* Heating capacity is based on climate and home efficiency. See your local Quadra-Fire dealer for more details.

PELLET PRODUCTS

PELLET STOVES

Advanced Energy

MT. VERNON

The core of the Mt. Vernon is Advanced Energy (AE) technology. Beneath its cast iron finish, the unit is automatically monitoring and adjusting performance. The result is consistent, efficient heating for 1,300 to 2,900 sq. ft.*

PELLET INSERTS

Advanced Energy

MT. VERNON INSERT

The Mt. Vernon AE Insert is performance at its peak. Advanced Energy (AE) technology maximizes efficiency and convenience—providing precision heating for 1,300 to 2,900 sq. ft.*

CASTILE

Classic cast iron styling and sophisticated engineering are a powerful combination in this pellet stove. Enjoy automatic ignition and a jam-free feed system while heating 700 to 1,700 sq. ft.*

CLASSIC BAY 1200

This large freestanding stove showcases intense burns through a 3-sided viewing area. Consistent, clean-burning performance helps provide heat for 1,000 to 2,700 sq. ft.*

SANTA FE

The simple, compact design of the Sante Fe looks at home in nearly any space. And this durable pellet stove provides high-efficiency heating for 700 to 1,900 sq. ft.*

CASTILE INSERT

The Castile insert is efficient and easy to use. Even better, it provides enough heat to fill most living, great and family rooms—or approximately 700 to 1,800 sq. ft.*

CLASSIC BAY 1200 INSERT

Witness the powerful performance of the 1200i through its large bay window. Enjoy high efficiency and powerful heating for 1,000 to 2,600 sq. ft.*

SANTA FE INSERT

The Sante Fe uses a patented feed system for jam-free operation and intense flames. A sleek, compact design fits in more spaces, and still produces heat for 700 to 1,800 sq. ft.*

WOOD PRODUCTS

ACC WOOD STOVES

Automatic Combustion Control (ACC) technology controls airflow for longer, cleaner and more efficient burns.

5700 STEP TOP

The 5700 step top is a wood-burning powerhouse—big on heating performance, and even bigger on efficiency. It can burn up to 21 hours on each load of wood, and heats 1,400 to 3,700 sq. ft.*

4300 STEP TOP

Old World styling cloaks advanced Quadra-Fire technology—turning this classic stove into an intense and efficient heating option. Enjoy proven performance and powerful heating for 1,100 to 3,000 sq. ft.*

3100 STEP TOP

Expect high-efficiency, clean-burning performance from the 3100 Step Top. This compact stove offers advanced heating control for 1,000 to 2,700 sq. ft.*

4300 MILLENNIUM

Quadra-Fire burn technology harnesses intense heat output for increased efficiency and extended performance in this large wood stove. And, it can heat 1,110 to 3,000 sq. ft.*

3100 MILLENNIUM

This rugged stove is built to last, with a fully-welded, firebox, heavy-duty hinges and plated steel construction. Enjoy the proven heating performance in 1,000 to 2,600 sq. ft.*

2100 MILLENNIUM

A compact design and solid heat output make the 2100 Millennium a practical solution for cooler levels, basements, porches and other spaces. Enjoy efficient heating for 800 to 2,100 sq. ft.*

CAST WOOD STOVES

ISLE ROYALE™

Efficient heating and stunning style make the Isle Royale a welcomed addition to any space. Enjoy rolling flames for up to 20 hours on each load of wood and heat for 1,300 to 3,400 sq. ft.*

CUMBERLAND GAP

Vintage cast iron styling, cabinet front doors and rich finishing options make the Cumberland Gap a beautiful home heating option. Enjoy vivid flames and heating for 1,300 to 3,400 sq. ft.*

YOSEMITE

The Yosemite offers superior cast iron craftsmanship and advanced Quadra-Fire technology in a compact design. Accent a room and deliver serious heating power for 800 to 2,700 sq. ft.*

WOOD FIREPLACES

7100 FIREPLACE

This EPA-certified wood fireplace is large, efficient and extremely clean-burning. Enjoy intense flames, long burn times and heat for 1,200 to 3,000 sq. ft.*

WOOD FIREPLACE FRONTS

Mission Hill - Solid steel with nickel trim highlights intense fires. Available for the 7100 fireplace only.

Valley Forge - Showcase roaring fires with wrought iron style and a large, arched window. Available for the 7100 fireplace only.

Rolling Meadows - A flat steel surface with raised edging in all black, or with satin nickel trim. Available for the 7100 fireplace only.
